

Bok Hoon

BOK HOON ONG

**ENABLEMENT
SINCE 2020**

I am a mother of three grown-up kids. I enjoy hiking and reading. I have been volunteering with NParks, SG Beach Warriors, other than PeopleStories.

If you had to write a book, what will the title be? Why?

'The people I meet'. I have met many wonderful people when I travel, work, attend lessons or do volunteer work. I would like to pay tribute to them for having inspire me in one way or another.

How did you get to know PS and how did you become involved?

A friend introduced me to Vic. Vic mentioned that help is needed for the monthly newsletter. I thought I can allocate some time to do this as I have started working part-time since 2019.

Why PeopleStories?

PS's main purpose is to help underprivileged children in rural Cambodia to continue their education. I thought it is meaningful to help in this manner and it is also great to know that all the donations go directly to the students. Not to the parents or the local authorities or simply lost in the process.

If you could say something to your 10-year-old self, what would it be?

Remember to ask people you meet as and when you feel curious about anything. People are always willing to share their experience. It will be interesting to find out how people learn when they were kids, what are they working as and what is the most joyful part in their job.

If you are granted 3 wishes to make the world a better place, what would those wishes be?

- 1)Each government is headed by someone, who genuinely care for his or her people.
- 2)Each of us is willing and ready to reach out to help someone in need.
- 3)Each of us thinks of the consequences to Mother Earth before we buy anything.
