## PATRICK LAU

### GOVERNANCE SINCE 2017

I am a 90% introverted who interacts with people almost every moment everyday in his job.

#### **If you had to write a book, what will the title be? Why?**

“50 things you need to know to survive sleepless nights with your baby” I think I know one or two and won't mind researching for the rest.

#### **How did you get to know PS and how did you become involved?**

Vic shared with me her dream which I found it not only meaningful, but I can also see her vision and determination, which made it possible. Vic, together with all other changemakers, have proven my belief to be correct.

#### **Why PeopleStories?**

We empower rather than air-drop. 100% of our donation goes to the beneficiaries which is awesome.

#### **If you could say something to your 10-year-old self, what would it be?**

The world is crazier than you think but it is alright, coz you are much stronger than you know.

#### **If you are granted 3 wishes to make the world a better place, what would those wishes be?**

- 1) All dictators step down and pay the price
- 2) True freedom for everyone
- 3) Affordable medical care and medicine all around the world
