## EDWARD KEEYS

### TECHNOLOGY SINCE 2020

I am someone that loves new experiences and travelling while getting to learn local customs and meeting new people. Learning new skills is also one of the things I like to do.

#### **If you had to write a book, what will the title be? Why?**

This question is hard to answer because there are many different titles that I could choose from, but it will most likely be novel detailing adventures throughout the world.

#### **How did you get to know PS and how did you become involved?**

It was introduced to it through a member of PeopleStories, and decided it is a good cause and wanted to join and be involved.

#### **Why PeopleStories?**

PeopleStories's efforts in providing easier access to better education for children in a less fortunate environment is very admirable and makes me want to be a part of this cause, and giving opportunities to others.

#### **If you could say something to your 10-year-old self, what would it be?**

Enjoy school more and worry less.

#### **If you are granted 3 wishes to make the world a better place, what would those wishes be?**

- 1) More accessible international travel
- 2) More accessible education
- 3) More accessible entertainment.
